West cliff

- Migration Spotting November 9th 2012
- Mapped migrations
1. A robin leaping south
  2. A swallow darting to Africa
  3. A razorbill arriving from south-west Ireland
  4. A Red-throated diver from Shetland wintering
  5. Greenfinches rummaging in tussocks
  6. Linnets dropping and funnelling off The Bill
  7. Starlings flocking west
  8. Chaffinches zipping to Germany
  9. Arctic fringe common scoters straggling
  10. A Baltic black headed gull hovering
  11. Twenty laughing common gulls from Denmark
  12. Bramblings flit from Sweden
  13. Goldfinches always bearing east
  14. Ten blackbirds trilling and fluting
  15. Low country skylarks are the last to move

- To be mapped:
- Twelve flicking and wagging motacilla alba [pied wagtails]
  - A resident phalacrocorax carbo diving [cormorant]
  - Buteo buteo circling/soaring [buzzard]
  - Punctual columba palumbus never departs [woodpigeon]
  - Morning alcedo atthis fishing The Brit [kingfisher]
  - Prunella modularis continuous scolding [duncock]
  - Larus marinus cries hoarsely [great black backed gull]
  - Over one hundred larus argentatus shrieking [herring gull]
  - Anthus pratensis blogging and waiting to move [meadow pipets]
  - Falco columbarius migrating with the pipits [merlin]
  - Anthus petrosus picking at the undercliff [rock pippet]
  - Saxicola torquata -tsip -tsip at Devil's Dip [stonechat]
  - Four pica pica lurking [magpie]
  - Uria aalge bobbing and dipping [guillemot]
  - Fifty pitching and rolling Corvus monedula [jackdaw]
  - Wintering Morus bassanus scavenges [gannet]

Lineage and Linguistics notes  
October 18th 2013

Devil's Dip - forest marble quarry atop the West Cliff

Gape - the bugle blower on the East Cliff when the 'Mackel Stayer'

Good - shipbuilding to rope, net, shingle, tobacco and brandy

Slader - rope and sailcloth

Hounsell - cordage, twine, canvas lines and net, and the first boat called Mary that sailed to Newfoundland for cod, where some settled.

Other vessels include :  
The Speedy to Australia in 1810

The Nourmahal built 174 feet long, 33 feet [...] beam, 21ft lynch depth of hold and measures 846 tons to New Zealand 1859

Gundry - Rope and Net  
Roberts - born at The Sloop. The poor man's friend

Pitt-Rivers (Augustus) - Archaeologist -The West Bay Building Company  
Earl of Ilchester - The West Bay Building Company

3. A razorbill [alca torda] arriving from south-west Ireland

A swallow [hirundo rustical] darting to Africa

4. Red throated diver [gavia arctica] from Shetland wintering

5. Greenfinches [carduelis chloris] rummaging in tussocks

6. Linnets [carduelis cannabina] dropping and funnelling off The Bill

7. Starlings [sturnus vulgaris] flocking west

8. Chaffinches [fringilla coelebs] zipping to Germany

9. Arctic fringe common scoters [melanitta arctica] straggling

10. A Baltic black headed gull [larus marinus] hovering

11. Twenty laughing common gulls [larus ridibundus] from Denmark

12. Bramblings [monticola monticola] flitting from Sweden

13. Goldfinches [carduelis carduelis] always bearing east

14. Ten blackbirds [turdus merula] trilling and fluting

15. Low country skylarks [alauda arvensis] are the last to move

16. Starlings [sturnus vulgaris] flocking west

17. Chaffinches [fringilla coelebs] zipping to Germany

18. Arctic fringe common scoters [melanitta arctica] straggling

19. A Baltic black headed gull [larus marinus] hovering

20. Twenty laughing common gulls [larus ridibundus] from Denmark

21. Bramblings [monticola monticola] flitting from Sweden

22. Goldfinches [carduelis carduelis] always bearing east

23. Ten blackbirds [turdus merula] trilling and fluting

24. Low country skylarks [alauda arvensis] are the last to move

25. Starlings [sturnus vulgaris] flocking west

26. Chaffinches [fringilla coelebs] zipping to Germany

27. Arctic fringe common scoters [melanitta arctica] straggling

28. A Baltic black headed gull [larus marinus] hovering

29. Twenty laughing common gulls [larus ridibundus] from Denmark

30. Bramblings [monticola monticola] flitting from Sweden

31. Goldfinches [carduelis carduelis] always bearing east

32. Ten blackbirds [turdus merula] trilling and fluting

33. Low country skylarks [alauda arvensis] are the last to move

34. Starlings [sturnus vulgaris] flocking west

35. Chaffinches [fringilla coelebs] zipping to Germany

36. Arctic fringe common scoters [melanitta arctica] straggling

37. A Baltic black headed gull [larus marinus] hovering

38. Twenty laughing common gulls [larus ridibundus] from Denmark

39. Bramblings [monticola monticola] flitting from Sweden

40. Goldfinches [carduelis carduelis] always bearing east

41. Ten blackbirds [turdus merula] trilling and fluting

42. Low country skylarks [alauda arvensis] are the last to move

43. Starlings [sturnus vulgaris] flocking west

44. Chaffinches [fringilla coelebs] zipping to Germany

45. Arctic fringe common scoters [melanitta arctica] straggling

46. A Baltic black headed gull [larus marinus] hovering

47. Twenty laughing common gulls [larus ridibundus] from Denmark

48. Bramblings [monticola monticola] flitting from Sweden

49. Goldfinches [carduelis carduelis] always bearing east

50. Ten blackbirds [turdus merula] trilling and fluting

51. Low country skylarks [alauda arvensis] are the last to move

52. Starlings [sturnus vulgaris] flocking west

53. Chaffinches [fringilla coelebs] zipping to Germany

54. Arctic fringe common scoters [melanitta arctica] straggling

55. A Baltic black headed gull [larus marinus] hovering

56. Twenty laughing common gulls [larus ridibundus] from Denmark

57. Bramblings [monticola monticola] flitting from Sweden

58. Goldfinches [carduelis carduelis] always bearing east

59. Ten blackbirds [turdus merula] trilling and fluting

60. Low country skylarks [alauda arvensis] are the last to move

61. Starlings [sturnus vulgaris] flocking west

62. Chaffinches [fringilla coelebs] zipping to Germany

63. Arctic fringe common scoters [melanitta arctica] straggling

64. A Baltic black headed gull [larus marinus] hovering

65. Twenty laughing common gulls [larus ridibundus] from Denmark

66. Bramblings [monticola monticola] flitting from Sweden

67. Goldfinches [carduelis carduelis] always bearing east

68. Ten blackbirds [turdus merula] trilling and fluting

69. Low country skylarks [alauda arvensis] are the last to move

70. Starlings [sturnus vulgaris] flocking west

71. Chaffinches [fringilla coelebs] zipping to Germany

72. Arctic fringe common scoters [melanitta arctica] straggling

73. A Baltic black headed gull [larus marinus] hovering

74. Twenty laughing common gulls [larus ridibundus] from Denmark

75. Bramblings [monticola monticola] flitting from Sweden

76. Goldfinches [carduelis carduelis] always bearing east

77. Ten blackbirds [turdus merula] trilling and fluting

78. Low country skylarks [alauda arvensis] are the last to move

79. Starlings [sturnus vulgaris] flocking west

80. Chaffinches [fringilla coelebs] zipping to Germany

81. Arctic fringe common scoters [melanitta arctica] straggling

82. A Baltic black headed gull [larus marinus] hovering

83. Twenty laughing common gulls [larus ridibundus] from Denmark

84. Bramblings [monticola monticola] flitting from Sweden

85. Goldfinches [carduelis carduelis] always bearing east

86. Ten blackbirds [turdus merula] trilling and fluting

87. Low country skylarks [alauda arvensis] are the last to move

88. Starlings [sturnus vulgaris] flocking west

89. Chaffinches [fringilla coelebs] zipping to Germany

90. Arctic fringe common scoters [melanitta arctica] straggling

91. A Baltic black headed gull [larus marinus] hovering

92. Twenty laughing common gulls [larus ridibundus] from Denmark

93. Bramblings [monticola monticola] flitting from Sweden

94. Goldfinches [carduelis carduelis] always bearing east

95. Ten blackbirds [turdus merula] trilling and fluting

96. Low country skylarks [alauda arvensis] are the last to move

97. Starlings [sturnus vulgaris] flocking west

98. Chaffinches [fringilla coelebs] zipping to Germany

99. Arctic fringe common scoters [melanitta arctica] straggling

100. A Baltic black headed gull [larus marinus] hovering

101. Twenty laughing common gulls [larus ridibundus] from Denmark

102. Bramblings [monticola monticola] flitting from Sweden

103. Goldfinches [carduelis carduelis] always bearing east

104. Ten blackbirds [turdus merula] trilling and fluting

105. Low country skylarks [alauda arvensis] are the last to move

106. Starlings [sturnus vulgaris] flocking west

107. Chaffinches [fringilla coelebs] zipping to Germany

108. Arctic fringe common scoters [melanitta arctica] straggling

109. A Baltic black headed gull [larus marinus] hovering

110. Twenty laughing common gulls [larus ridibundus] from Denmark

111. Bramblings [monticola monticola] flitting from Sweden

112. Goldfinches [carduelis carduelis] always bearing east

113. Ten blackbirds [turdus merula] trilling and fluting

114. Low country skylarks [alauda arvensis] are the last to move

115. Starlings [sturnus vulgaris] flocking west

116. Chaffinches [fringilla coelebs] zipping to Germany

117. Arctic fringe common scoters [melanitta arctica] straggling

118. A Baltic black headed gull [larus marinus] hovering

119. Twenty laughing common gulls [larus ridibundus] from Denmark

120. Bramblings [monticola monticola] flitting from Sweden

121. Goldfinches [carduelis carduelis] always bearing east

122. Ten blackbirds [turdus merula] trilling and fluting

123. Low country skylarks [alauda arvensis] are the last to move

124. Starlings [sturnus vulgaris] flocking west

125. Chaffinches [fringilla coelebs] zipping to Germany

126. Arctic fringe common scoters [melanitta arctica] straggling

127. A Baltic black headed gull [larus marinus] hovering

128. Twenty laughing common gulls [larus ridibundus] from Denmark

129. Bramblings [monticola monticola] flitting from Sweden

130. Goldfinches [carduelis carduelis] always bearing east

131. Ten blackbirds [turdus merula] trilling and fluting

132. Low country skylarks [alauda arvensis] are the last to move

133. Starlings [sturnus vulgaris] flocking west

134. Chaffinches [fringilla coelebs] zipping to Germany

135. Arctic fringe common scoters [melanitta arctica] straggling

136. A Baltic black headed gull [larus marinus] hovering

137. Twenty laughing common gulls [larus ridibundus] from Denmark

138. Bramblings [monticola monticola] flitting from Sweden

139. Goldfinches [carduelis carduelis] always bearing east

140. Ten blackbirds [turdus merula] trilling and fluting

141. Low country skylarks [alauda arvensis] are the last to move

142. Starlings [sturnus vulgaris] flocking west

143. Chaffinches [fringilla coelebs] zipping to Germany

144. Arctic fringe common scoters [melanitta arctica] straggling

145. A Baltic black headed gull [larus marinus] hovering

146. Twenty laughing common gulls [larus ridibundus] from Denmark

147. Bramblings [monticola monticola] flitting from Sweden

148. Goldfinches [carduelis carduelis] always bearing east

149. Ten blackbirds [turdus merula] trilling and fluting

150. Low country skylarks [alauda arvensis] are the last to move

151. Starlings [sturnus vulgaris] flocking west

152. Chaffinches [fringilla coelebs] zipping to Germany

153. Arctic fringe common scoters [melanitta arctica] straggling

154. A Baltic black headed gull [larus marinus] hovering

155. Twenty laughing common gulls [larus ridibundus] from Denmark

156. Bramblings [monticola monticola] flitting from Sweden

157. Goldfinches [carduelis carduelis] always bearing east

158. Ten blackbirds [turdus merula] trilling and fluting

159. Low country skylarks [alauda arvensis] are the last to move

160. Starlings [sturnus vulgaris] flocking west

161. Chaffinches [fringilla coelebs] zipping to Germany

162. Arctic fringe common scoters [melanitta arctica] straggling

163. A Baltic black headed gull [larus marinus] hovering

164. Twenty laughing common gulls [larus ridibundus] from Denmark

165. Bramblings [monticola monticola] flitting from Sweden

166. Goldfinches [carduelis carduelis] always bearing east

167. Ten blackbirds [turdus merula] trilling and fluting

168. Low country skylarks [alauda arvensis] are the last to move

169. Starlings [sturnus vulgaris] flocking west

170. Chaffinches [fringilla coelebs] zipping to Germany

171. Arctic fringe common scoters [melanitta arctica] straggling

172. A Baltic black headed gull [larus marinus] hovering

173. Twenty laughing common gulls [larus ridibundus] from Denmark

174. Bramblings [monticola monticola] flitting from Sweden

175. Goldfinches [carduelis carduelis] always bearing east

176. Ten blackbirds [turdus merula] trilling and fluting

177. Low country skylarks [alauda arvensis] are the last to move

178. Starlings [sturnus vulgaris] flocking west

179. Chaffinches [fringilla coelebs] zipping to Germany

180. Arctic fringe common scoters [melanitta arctica] straggling

181. A Baltic black headed gull [larus marinus] hovering

182. Twenty laughing common gulls [larus ridibundus] from Denmark

183. Bramblings [monticola monticola] flitting from Sweden

184. Goldfinches [carduelis carduelis] always bearing east

185. Ten blackbirds [turdus merula] trilling and fluting

186. Low country skylarks [alauda arvensis] are the last to move

187. Starlings [sturnus vulgaris] flocking west

188. Chaffinches [fringilla coelebs] zipping to Germany

189. Arctic fringe common scoters [melanitta arctica] straggling

190. A Baltic black headed gull [larus marinus] hovering

191. Twenty laughing common gulls [larus ridibundus] from Denmark

192. Bramblings [monticola monticola] flitting from Sweden

193. Goldfinches [carduelis carduelis] always bearing east

194. Ten blackbirds [turdus merula] trilling and fluting

195. Low country skylarks [alauda arvensis] are the last to move

196. Starlings [sturnus vulgaris] flocking west

197. Chaffinches [fringilla coelebs] zipping to Germany

198. Arctic fringe common scoters [melanitta arctica] straggling

199. A Baltic black headed gull [larus marinus] hovering
